Adam Pitale –
Founder & Chief Detailer

THE FIRST NAME IN CAR CARE.

Adam Pitale's passion for cleaning started at a young age. He started his first business washing and polishing bicycles in his neighborhood. By age 10, he turned his attention to cars and trucks with a mobile detailing business that eventually began specializing in limousine fleets.

Throughout high school and college, Adam continued to grow his company and service large fleets, while looking for ways to evolve his products, change his process and enhance cleaning efficiencies. His expanded fleet detailing business also helped him create new products which he began selling at the Orange County Swap Meet in Southern California. Since he never officially named his company, it eventually became known as "Adam's."

Today, Adam's Polishes®¹  are available directly from GMC.com/accessories or at your local GMC dealer. His premium car care signature line includes car wax, sealants, dressings, cleaners and polishes – all guaranteed to outshine and outlast any product you've used on your GMC.

GM Licensed and Associated Accessories are covered under the accessory-specific manufacturer's warranty and are not warranted by GM or its dealers. GM is not responsible for the safety or quality of independent supplier alterations.

It offers the look and comfort of carpet in ultra-tough 100% polypropylene (essentially plastic) construction while protecting the truck bed from impact dings and damage. It stands up to the most harsh conditions owners can throw at it — from gravel to battery acid — and still protects precious cargo and your knees!

- Molded to fit specific GMC pickup models to look great and fit like a glove

- Non-skid surface keeps cargo in place
- A built-in hinge between the truck bed and tailgate prevents debris from collecting
- Fade- and UV-resistant foam is similar to that used in life jackets. It won't absorb water and will not mold or mildew

- Cleans easily with a garden hose, power washer or vacuum to look good as new

BED MAT

With cutting-edge materials designed especially for outside use, BedRug™1 brings next-gen performance to bed and tailgate protection for Sierra and Canyon. Featuring an ultra-tough 100% polypropylene mat that's fade- and UV-resistant, the BedRug™1 Bed Mat offers the look and feel of carpet in a water-resistant fiber that's slip- and skid-resistant and dries in as little as 20 minutes. Added features include:

- A $\frac{3}{4}$ -inch thick, custom-molded foam backing that conforms to the cargo bed contours while protecting cargo and providing a comfortable kneeling surface
- Foam backing that won't scratch the truck bed or allow mold or mildew to form — water simply runs out of the factory drain holes in the truck bed
- A contact surface that stands up to nearly any spill imaginable — bleach, battery acid, oil or gasoline washes right off
- Cleans easily with a hose, power washer or vacuum to look as good as new
- Installs in minutes with hook-and-loop fasteners
- Includes tailgate mat on Next Generation 2019 Sierra 1500
- Not compatible with MultiPro™ tailgate

WITH LIGHTWEIGHT, POWERFUL BATTERY BOOSTERS FROM NOCO®¹

Dead vehicle batteries are no longer a problem, thanks to Genius Boost Jump Starters from NOCO®¹. These portable lithium-ion battery jump starter packs feature patented safety technology that provides spark-proof connections and reverse polarity protection, making them safe and easy for anyone to use.

If you need a professional tool to help you understand the problem, you can turn to the NOCO® GB150 with the integrated voltmeter. There are many reasons why your vehicle may not start, but with a built-in digital voltmeter, you can quickly determine if it's a discharged battery or something else.

They are lightweight, weighing as little as 2.3 pounds, and can double as a portable power source for recharging USB devices, including smartphones and tablets. The NOCO® GB150 model features an integrated digital voltmeter to help track down the source of a no-start condition. Batteries showing 12.7–12.8 volts are good to go, allowing you to trace starter, alternator or battery cable issues instead.

Depending on the model, you can also power 12-volt devices, such as tire inflators and power inverters. Available in GB40, GB70 and GB150 versions, they feature an LED flashlight with seven light modes, including SOS and Emergency Strobe, and deliver multiple jump starts on a single charge, ensuring safe motoring for you and your loved ones.
